RELIGIOUS WORKERS ORGANIZING CHURCH ADVERTISING BOARD

Committeemen Will Promote Systematic Publicity In Capital.

A publicity committee, composed of one representative from each Protestant church in Washington, is being organized by the Men and Religion Forward Movement, with the object of encouraging the religious institutions of the city to use newspaper advertising. Beginning on Thursday night, February 23, the men composing this committee will meet weekly, for six weeks, in the First Congregational Church, for the purpose of instructing church men in the true value of newspaper advertising and its proper use.

The organization of such a committee is the result of strong addresses by Eugene M. Camp, of New York, who spoke Tuesday afternoon, and Allan D. Sutherland, religious editor of the Philadelphia North American, who spoke yesterday afternoon on the question of newspaper advertising as applied to the churches.

Sutherland's Speech. In his address Mr. Sutherland said

"It pays the merchants to use dis play advertising; why shouldn't it pay the churches? One insertion of an advertisement, however, is almost worthless. You must keep plugging away

less. You must keep plugging away at it, and the results will show, churches should use newspaper advertising the same as the merchant, but these adds should be written by experienced ad writers. They should be attractive and catchy. Wise use of printers' ink is known to be very helpful in all professions, and especially in Christian work. It is poor economy to employ an inartistic or witless printer at any price. The daily newspaper is beyond a question of doubt the best advertising medium for the church."

Speaking on the question of local notices for church news. Mr. Sutherland said: "Pastors or church workers in sending in articles for the press should first see that what they send in is good news, properly written. They should trust to an editor's discretion about how much of a story should be used. Pastors should send in to the city editors of all papers in their city advange copies of their sermons. Other notices sent in by the paytors should be brief, real news, and free from comment."

Agree to Assist.

About 115 men have expressed their intention of becoming members of the organized publicity committee. Frederic J. Haskin, president of the National Press Club; James B. Morrow, National Press Club; James B. Morrow, George W. Coleman, of Boston, and William S. Powers, of Detroit, have signified their willingness to assist in instructing the members of the committee in the best methods that should be employed in church advertising.

Meetings were held in three of the colored churches last night. At Plysial Action of the colored churches last night. At Plysial Residue of the colored churches last night. At Plysial Residue of the colored churches last night.

Forecaster Sees End of Skating Season

Forecast of snow or rain for this afternoon and tonight promises to put an end to the skating season of Washington for the time being, at least. Indications are that a rising temperature will make the ice unsafe.

In the event of snow, the skating experts say that the ice-coated streams should not be used except in the early forenoons, late in the afternoons, and at night. The middle of the day temperature, the experts say, so softens the ice that steel skates coming in contact with it, spoils if for further use.

Near-freezing temperature, predicted for tonight, offers but little hope for the rapidly soften-

Thirkleid, of Howard University, were the appakers. At Israel Methodist Episcopal Church the speakers were the Rev. S. Brown, the Rev. R. K. Harris, and W. A. Hanten. The speakers at the Third Baptist Church were the Liev. J. H. Lee, Dr. A. T. Cabiniss, Ocea. Taylor, and Dr. S. J. Morris.

Will Map Out Plans For Social Reforms At Meeting Today

A social reform for Washington is expected to be mapped out sometime this afternoon at a meeting of the social service committee of the Men and Religion Forward Movement, in the offices of George S. Wilson, of the Board of Charities, in the District building. Today the executive committee of the eight-day campaign met in the offices of G. W. Swartzell, a real estate dealer, and appointed a committee of three to go before the social service committee and map out a plan of action to abolish unlawful segregation in this city.

At the meeting of the executive committee today the resolution adopted by Chicago Methodist preachers, urging that unlawful segregation in Washington be abolished, and that President Taft's aid be secured by the Men and Religion Forward Movement to accomplish such, were considered, and the committee appointed to meet with the social service committee this afternoon. A committee was appointed to co-operate with the Aloysius Truth Society in an effort to prevent the sale of suggestive postcards in the District.

In addition to recommending sweeping social reforms in Washington, the social service committee will urge the churches of Washington to form church federation, through which it church federation, through which it is expected that legislation dealing with moral and social conditions in Wash-

"Competition of the very keenest kind." said Mr. Paige, "holds down the price of our products. If the duty of 30 per cent on the presses we manufacture is removed and presses placed on the free list, it will serve to drive a great part of the manufacturing from this country to Europe, where labor cost is cheaper. In our case the result would be that we would cease doing business in this country, but would send in products manufactured in a factory we have in France.

"The effect of placing presses on the free list would result either in the loss of our business or in necessary reduction of wages to meet more nearly the lower cost of labor abroad. A more likely way of meeting the problem would be to enlarge our foreign factory and ship goods to the United States."

Plans are being made by Assessor W. a certain class of punching press, duty P. Richards, to prosecute in the Police

In order to carry out more rapidly the intent o fthe law, Mr. Richards today asked the Commissioners that additional help be furnished his office. Because no penalty for non-payment was provided in the law, on account of the difficulty of enforcement, an amendment providing for a fine of not more than \$500 or thirty days in jail was passed and held constitutional in the Cour of Appeals.

Sentiment Not Such As to Justify Favorable Action, Say Commissioners.

Expressing in decided terms their disapproval of the measure, the Commissioners sent to Congress today a report on the bill introduced by Congressman Victor Berger of Wisconsin, to provide self government in the District. The Commissioners say they are not aware of a sufficiently extended sentiment among the people of the District to justify a favorable recommendation nor do they know of any interest of the Government of the United States in the conduct of District Affairs which would be furthered by such legislation.

Experience, it is declared, not only has demonstrated the efficiency of the present form of government of the District, but has given rise to a sentiment in other municipalities in this and foreign countries, which has resulted in the adoption of a commission form of government elsewhere.
